Team Responsibilities & Delivery Report

Jira project TEAM5 (Team_5) - 4 Epics, 77 user stories across NIRALI Sprints 1-3

Delivery Summary

- 77 user stories: all marked Done (Status = Done, Resolution = Done).
- 4 Epics (Admin, Manager, Sales Associate, After Sales): shown as To Do, but these are container issues; every child story under them is completed.
- Committed backlog delivered: 100%. A small number of stories are functionally present but shallow (see 'Gaps & Replacements').

Member Responsibilities

Nirali Garg

Product Owner / Scrum Lead & Recommendations Engine

Stories: TEAM5-60, 61, 26, 27, 41, 44, 53, 76 (8) + reporter/creator of the full backlog

For the examiner: Led requirements, backlog and sprint planning, and delivered the recommendation engine and the after-sales ticket foundation.

Aryavansh Saini

Core Platform & Point-of-Sale / After-Sales Engineer

Stories: TEAM5-2, 25, 31, 40, 43, 45, 46 (7) + created the Admin/Manager/After-Sales epics

For the examiner: Owned the store-setup foundation, the POS checkout pipeline, and the after-sales exchange/warranty engine.

Prakhar Manu

Payments & Sales-Associate Epic Owner

Stories: TEAM5-7, 12, 32, 33, 34, 42, 49, 80 (8) + created the Sales Associate epic

For the examiner: Owned the payments integration end-to-end (Razorpay + card terminal + digital receipts).

Dhruv Negi

Admin Catalogue, Transfers & Analytics Dashboards

Stories: TEAM5-66, 67, 68, 84, 85, 86, 11, 70, 71, 30 (10)

For the examiner: Built the SKU catalogue and pricing bands, admin analytics dashboards, and the events subsystem.

Anoop Singh

Pricing Rules, Transfer Approval & Repair Workflow

Stories: TEAM5-65, 83, 13, 14, 18, 19, 63, 47, 55, 57 (10)

For the examiner: Owned pricing-policy enforcement and the after-sales repair-workflow state machine.

Tanishka Saxena

Clienteling / CRM & After-Sales Closure

Stories: TEAM5-9, 58, 20, 21, 22, 24, 52, 54, 56, 77 (10)

For the examiner: Built the clienteling/CRM and appointment experience and the after-sales estimate/closure screens.

Harman Singh

Staff/Manager Management & Order Fulfilment

Stories: TEAM5-73, 82, 74, 88, 29, 35, 87, 50, 51, 81 (10)

For the examiner: Owned the manager/staff lifecycle and the fulfilment-routing + BOPIS pickup flow.

Aditya Kumar

Store Configuration & Inventory / Stock Requests

Stories: TEAM5-6, 8, 72, 15, 16, 17, 48, 75 (8)

For the examiner: Built store configuration and the manager stock-request to tracking pipeline.

Mahak Sharma

Localization, Revenue Dashboard & Remote Selling

Stories: TEAM5-89, 10, 62, 23, 28, 79 (6)

For the examiner: Delivered app-wide multi-language localization and the executive cross-store revenue dashboard.

Contribution Counts

Member	Stories	Primary area
Dhruv Negi	10	Catalogue + analytics + events
Anoop Singh	10	Pricing + repair workflow
Tanishka Saxena	10	CRM + after-sales closure
Harman Singh	10	User mgmt + fulfilment
Nirali Garg	8	Project lead, backlog owner, recommendations
Prakhar Manu	8	SA epic owner, payments
Aditya Kumar	8	Store config + stock requests
Aryavansh Saini	7	Created 3 epics, POS/after-sales core
Mahak Sharma	6	Localization + revenue dashboard

Gaps & Suggested Replacements

These stories are marked Done but the code shows them as shallow or not truly implemented. For each, the recommended action is to REPLACE it in the demo with an equivalent, fully-working story owned by the same member (so scope and ownership stay balanced).

1. TEAM5-23 Video consultation + curated cart link (Mahak Sharma)

Issue: Only a 'video' appointment type + generated meeting link exist; no in-app video or cart sharing.

Replace with: Replace with TEAM5-28 Cross-sell at cart (Mahak) - fully working - and demo video only as a scheduled appointment with a join link.

2. TEAM5-52 Client digital sign-off on collection (Tanishka Saxena)

Issue: No signature-capture pad in code (only Razorpay payment-signature verification).

Replace with: Replace with TEAM5-77 History of completed exchanges/repairs (Tanishka) - fully working - to prove closure/audit is real.

3. TEAM5-48 Mandatory QA checklist (Aditya Kumar)

Issue: qa_checklist table exists but is empty and never touched by the app.

Replace with: Replace with TEAM5-17 Monitor stock-request status (Aditya) - fully working state tracking.

4. TEAM5-43 (AC) Upload condition photos + notes (Aryavansh Saini)

Issue: Exchange processing works; the photo-upload / condition_photo part is not wired.

Replace with: Replace with TEAM5-45/46 Warranty validation & out-of-warranty flagging (Aryavansh) - fully working.

5. TEAM5-86 Transfer status notifications (persisted history) (Dhruv Negi)

Issue: Alerts are computed client-side; the notification table is empty (no retained history).

Replace with: Replace with TEAM5-68 Receive/review transfer requests (Dhruv) - fully working transfer intake + status.

Note on Jira data quality: several Admin/Manager stories (e.g., TEAM5-82, 84, 85, 86, 25) have acceptance-criteria text copy-pasted from other stories. The delivered features match each story's SUMMARY correctly; only the pasted criteria are mismatched.
